Project Bloor – Highway 427 (W14760)**

We're planning to perform work on the underground electrical system in your community. The project includes the relocation of the existing electrical cables and feeders within the City of Toronto's public property allowance at **Bloor Street West** and **Highway 427**.

The civil portion of this project is expected to begin by **early June 2018** with an approximate completion date of **late December 2018**. The project area includes sections of **Bloor Street West** and **Highway 427** between **The West Mall** (west) and **The East Mall** (east).

Our crews and contractors will take extra care and precautions around your property. The portion of areas affected by our work will be restored upon completion of the project as season, weather and schedules permit.

We appreciate your cooperation and ask that you exercise caution around construction areas. We look forward to working with you.
